A Two-Day Workshop
on

Intellectual Property Rights and Viksit Bharat @ 2047

Sponsored by

Council of Science & Technology, UP
(CST, U.P.)
23-24 January, 2025

Organized By

Intellectual Property Rights Cell (IPR)
Jananayak Chandrashekhar University
Ballia (U.P.)

About the University:

Jananayak Chandrashekhar University, Ballia (henceforth JNCU) was established on 22 December 2016. Ballia, the great capital of King Bali and the prodigious seat of penance of the great devotee Maharishi Bhrgu, is the birthplace of great souls like Mangal Pandey (the first martyr of India's First Independence Movement in 1857), Chittu Pandey (the first district magistrate in the wake of Quit India Movement, 1942); Jayaprakash Narayan (popularly known as J. P. or Lok Nayak emerged against the backdrop of the 1975 Emergency) and Chandrashekhar, the former Prime Minister of India, famous as Jananayak and Yuva Turk leader. Ballia has also been the inordinate place of litterateurs like Acharya Parashuram Chaturvedi, Hajari Prasad Dwivedi, Amarkant, Padmashri Krishna Bihari Mishra and Kedarnath Singh, etc. In addition to the above, it is delightfully shared that the Ballia is a land of "living legends" who are deponents of this glorious tradition of knowledge production who belong to the seat of learning and disseminate the same globally by being an indispensable part of Ballia Diaspora.

The JNCU, sprawling over 54 acres of lush green campus near Suraha Taal, the bonafide of approx. 20,000 migratory birds, was established with an objective to impart quality education to the students who hail from the rural segments of the district Ballia. The university also focuses to provide career-oriented courses to the students to enable them to be at par with national/international standards. The university offers various courses related to the discipline of Arts, Sciences, Commerce, Law and Agriculture Sciences, moderated by 19 departments. At present, the University has 04 Associate Professors and 28 Assistant Professors in addition to 26 guest faculties in various departments. The University campus has the total intake of approx. 1300 students while 138 colleges are affiliated to it.

Concept Note

A Two-Day awareness workshop on Intellectual Property Rights (IPR) and Viksit Bharat@2047 is an insightful initiative aimed at fostering a culture of innovation and intellectual protection. Designed for academicians, research scholars, industry professionals, and NGO representatives, the program provides a thorough understanding of IPR and its critical role in academic, research, and entrepreneurial domains.

The workshop focuses on equipping participants with the knowledge and skills required to transform research outputs into patents and protect their intellectual contributions. Through interactive sessions, expert-led discussions, and hands-on training, participants learn key aspects such as patentability criteria, patent filing procedures, prior-art searches, and strategies for managing and protecting intellectual property in the digital age.

A key highlight of the program is its practical approach to identifying innovations within research work and guiding participants through the patent application process. This empowers researchers to secure and commercialize their innovations effectively. Additionally, case studies and real-world examples provide deeper insights into navigating issues like patent oppositions and freedom-to-operate analyses.

The workshop also emphasizes the link between effective IP management and entrepreneurship, showcasing how startups and industry professionals can leverage IP assets for competitive advantage and economic growth. By fostering networking opportunities and collaborations, the program serves as a catalyst for advancing research and technological development.

In addition, this transformative initiative is a strategic step toward enhancing innovation, protecting intellectual property, and driving economic and technological progress. It is an invaluable resource for building a robust ecosystem of innovation and IP awareness.

About IPR Cell of the JNCU

INTELLECTUAL PROPERTY RIGHTS CELL

The Intellectual Property Rights (IPR) Cell of the University is focused to recognize the importance of generation of intellectual property by its faculty members and students. The Cell encourages the creativity and innovations of its people which lead to generation of Intellectual Property (IP). The cell is committed to support and guide the students and faculty members in protecting their innovative and creative ideas.

OBJECTIVES:

- To create an awareness about IPR for faculties and students of the University.
- To conduct workshops, seminars and training programs on IPR and patent filing processes.
- To disseminate knowledge on patents and registration methods in India and abroad.
- To encourage faculty members and scholars towards patentable works and innovation.
- To coordinate between inventors, IP consultants, Attorneys and PEC authorities for filing and managing patents.
- To educate the faculty on obtaining copyrights for their publications.
- To provide awareness to the public through IP Road Shows, IP Street Play and various competitions.
